Opis

All therapists and professional practice and services, who register with e-therapy, receive their own sub-domain (website). The service is available for all types of therapists: psychologists, counsellors, nutritionists, caseworkers and other professional support occupations.

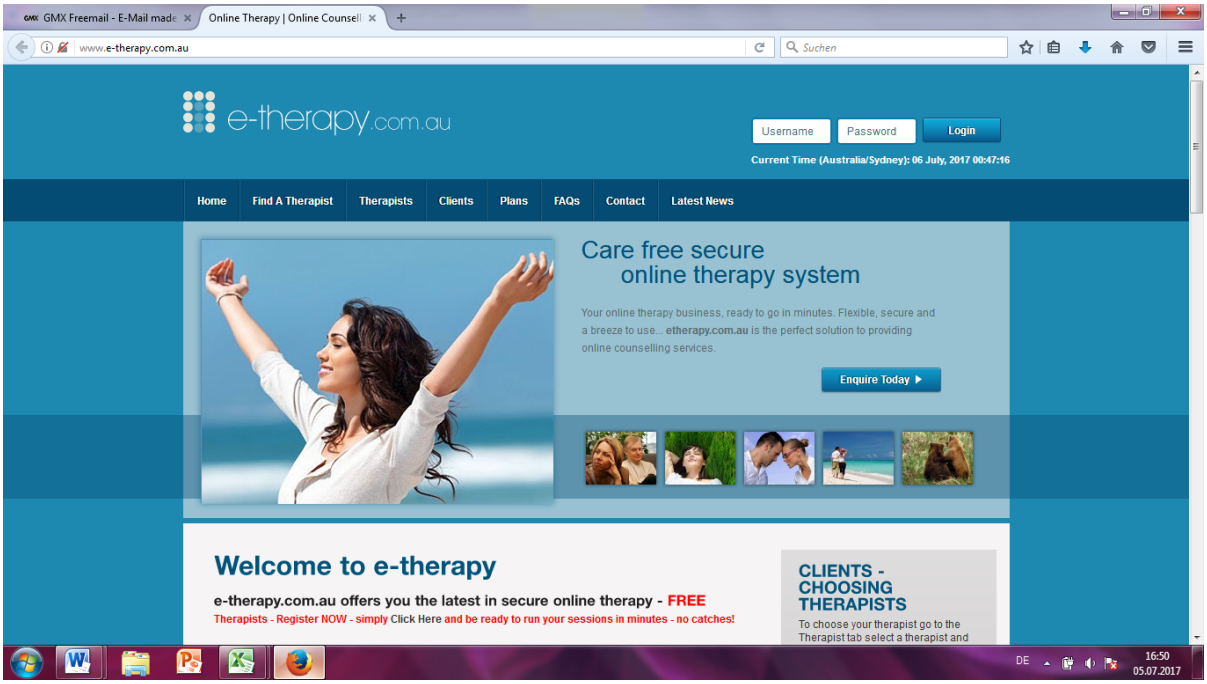

Benefits of e-therapy for therapists

- Clients can access services when it suits them.
- Therapists can provide service to clients in remote areas.
- Housebound clients have access to therapy.
- E-therapy is an addition to traditional therapy, allowing chats between face-to-face sessions.
- E-therapy can be a first step in therapy for reluctant face-to-face groups; such as men and teenagers.

Benefits for the client

- They don't have to travel to a therapist.
- Online therapy can complement traditional face-to-face sessions.
- Online meetings in the comfort of the home, workplace or anywhere that suits clients.

More flexible session times can be chosen.
