

moodpath

Moodpath je interaktivni program mentalnog zdravlja za prepoznavanje simptome depresije. Nakon 14-dnevnog razdoblja praćenja sudionici dobivaju temeljitu procjenu svog mentalnog zdravlja i podršku za samopomoć. Besplatno je dostupan na iOS i Androidu. Daljnji materijal će pomoći sudionicima da bolje razumiju svoje rezultate a pružena je pomoć pri pronalaženju stručnjaka za mentalno zdravlje.

Opis

Moodpath is an optimized screening procedure for recognizing depression, specifically designed for the use on smartphones. The screening was developed in close cooperation with the Division of Clinical Psychological Intervention of the Free University of Berlin. During the screening, the smartphone will accompany the user in his daily life for 14 days. Thereby the collection of valid data points concerning mental illnesses that require treatment is enabled. Moodpath is currently being evaluated in a clinical study at a hospital in Berlin. Over the course of 14 days, participants will be asked about their physical and emotional well-being. Thereby participants reflect their own mood and can better understand the interplay of their thoughts, feelings, behaviour and body. They will receive a profound assessment of their state of mental health after the screening. Further material will help to learn more about their results and potential treatment options. Besides they will receive a summary of their results as a pdf file so that they can share it with their doctor or therapist. If needed, Moodpath can connect the client with experts in his/her area. Finally comprehensive information about depression can be found on the website.

The screenshot shows the moodpath.de website. At the top, there are navigation links: Moodpath App, Wissenschaft, Für Ärzte & Therapeuten, Moodpath Magazin, and Deutsch. The main headline reads: "Traurig, antriebslos, ausgebrannt oder ständig müde?". Below this, a text block states: "Moodpath ist ein interaktives Screening Deiner psychischen Gesundheit und erkennt Symptome einer Depression. Nach dem 14-tägigen Screening erhältst Du eine fundierte Einschätzung Deiner psychischen Gesundheit und Hilfe zur Selbsthilfe." A note below says: "Jetzt kostenlos verfügbar für iOS und Android". It shows download links for the App Store and Google Play, and a CE certification logo. To the right, there's a mobile phone displaying the Moodpath app interface. Below the phone, there are three circular icons representing security: a person with a crossed-out camera, a padlock, and a shield. The bottom of the screenshot shows a Windows taskbar with various open applications and the system clock.
